

THE PIOCHE WEEKLY RECORD.

VOL. XLVIII.

PIOCHE, NEVADA, THURSDAY, FEBRUARY 3, 1898

NO. 5.

Comparison of Cost.

Mining for Gold and Silver.

Facts On the Subject As Opposed To Theories.

During his stay in Chicago this Winter, Assessor Freudenthal met many ardent bi-metalists and the exchange of ideas resulted in a request that he write his views on the comparative cost of production of gold and silver, based on his knowledge of this section. He submitted an article which was published in the Dispatch of the 11th ult. The Dispatch is one of the very few papers in Chicago whose columns are open, without pay to a discussion of the silver side of the money question. The article is of more than passing interest hereabouts as it is based on figures representing actual workings in Lincoln county, and other mining sections of the State are similarly situated.

It seems to be the universal and accepted opinion of the goldbug that the cost of mining one dollar in silver is less than it is for one dollar in gold and he bases his assertion on the estimated production of the gold and silver throughout the world and the estimated cost of the reduction, not taking into consideration the fact that millions have been expended in the search for both metals from which no returns have ever been realized of which there are no statistics that can be relied upon; and for this reason a reckoning on this basis is not a just nor a true one.

Let us look at it in a business way for mining is one of profit and loss, the same as any other venture in which the public engages, both being chance in which the risk is greater with mining than it is with any other kind of enterprise, and the profit and loss fluctuate to a higher degree.

Now, the first thing to consider is what the cost of mining one dollar in silver and what is the cost of mining one dollar in gold? To get at this I will take one county in the State of Nevada—Lincoln county—a county that is 300 miles long and 200 miles wide, and which it depends on the output of its silver and gold mines.

By virtue of my office, I have the right to examine the books of every mining company operating in the county, and it is a part of my official duties to do so, and from that examination I make an assessment on net proceeds of the mine. Covering a period of eight years 250,000 tons of gold and silver ore have been treated giving a gross yield of \$5,650,000.

Gold ore of the value of \$6.50 per ton will just clear itself, while it takes silver ore of the value of \$19.50 per ton to make expenses; and the question just here will be asked: "Why does it take a higher value in silver ore to pay than it does in gold?"

The cost of extracting one ton of ore from the mine, whether it contains silver or gold, is about equal, but the process necessary to extract silver out of the ore is much more difficult and much more expensive than it is to extract the gold, and the ratio is about \$6.50 per ton in gold ore to \$19.50 in silver ore, or it costs three times as much to extract one dollar in silver as it does one dollar in gold, and if we use 100 as a basis we have a 75-cent silver dollar and a 25-cent gold dollar.

I have used the words "We have a 75-cent silver dollar and a 25-cent gold dollar." I do not wish to be understood by that that for every silver dollar mined there is a profit of 25 cents, nor either a profit of 75 cents on every gold dollar mined, but to show the relative cost of putting the two metals in a marketable shape. It is claimed that the silver miner wants a 50-cent dollar, or in other words, want \$1 for every 50 cents mined.

It is just as absurd to claim that the gold miner want a 25-cent gold dollar, or \$1 for every 25 cents mined although the claim would be far more just on the part of the silverite than it would be for the goldite to claim as he does now, that the silver miner want \$1 for 50 cents.

Should the ore run higher or lower in either gold or silver it does not diminish or increase the cost of extracting that one dollar, but is a profit or loss, as the case may be. Take two mines each producing ten tons of silver ore a day, one of the value of \$19.50 per ton and the other \$50 per ton; at the end of the month the one producing \$19.50 per ton will find its ledger balance while the mine worth the \$50 ore will show a credit balance of \$300.50.

The cost of working and extract-

ing the ore has been the same, but one has been more fortunate than the other in getting richer ground. The same applies to the gold mine if one miner should get \$1,000 gold ore his profit is greater than the miner who finds ore of a less value, but it does not diminish the cost of getting the one dollar out of the ore.

Although the cost of working ore varies with the locality and district in which the mines are situated, I have taken the lowest in our county. Mining is going on in some parts where it takes \$15 gold ore to pay, but the ratio still remains the same, for wherever it takes a higher value in gold to pay it increases in the same ratio for silver.

In California gold ore of the value of 34 cents a ton has been worked for the small price of 78 cents a ton leaving a profit of 6 cents. Is there a silver mine anywhere on the face of the globe of the value of \$2.50 per ton in silver that can be worked? No, not one and yet the goldbug claims that it costs less to produce one dollar in silver than it does one dollar in gold. There is not a silver mine in the United States where the cost of extracting one dollar in silver is not greater than the cost of extracting one dollar in gold, and the only true correct way to get at this cost is by a personal examination of the books of mining companies. Estimated statistics are not as reliable as cold facts when presented in black and white.

H. E. FREUDENTHAL, Assessor Lincoln County, Nevada.

A Sure Thing for You.

A transaction in which you cannot lose is a sure thing. Biliousness, sick headache, furred tongue, fever, piles and a thousand other ills are caused by constipation and sluggish liver. Cascarets Candy Cathartic the wonderful new liver stimulant and intestinal tonic are by all druggists guaranteed to cure or money refunded. C. C. C. are a sure thing. Try a box to-day: 10c, 25c, 50c. Sample and booklet free.

Sunnyside Mail Route Changed. The settlers in Cave Valley and at Little Cherry Creek, Nye County are supplied with mail from the Sunnyside postoffice. The route to Sunnyside at present runs from DeLamar with no office intervening.

Under date of January 19th, the postmaster here is advised that the contractor on the route from DeLamar to Sunnyside has been instructed, to embrace and begin at Pioche omitting DeLamar, the change to take effect from February 1st.

This changes the route entirely and makes Pioche the starting office. The change is made to save mileage and after July next it is thought one route only will be maintained and the existing Geyser line merged into it.

Everybody Says So.

Cascarets Candy Cathartic, the most wonderful medical discovery of the age, pleasant and refreshing to the taste, act gently and positively on kidneys, liver and bowels, cleansing the entire system, dispel colds, cure headache, fever, habitual constipation and biliousness. Please buy and try a box of C. C. C. to-day 10, 25, 50 cents. Sold and guaranteed to cure by all druggists.

ADVERTISED LETTER LIST.

The following letters remain uncalled for at the Pioche postoffice Feb. 3rd, 1898:

Jensen A. P. Nielson J. F.
Peterson A. Staples T.
Sullivan D. O.
Parties calling for the above letters will please say "advertised."
M. J. Carman, P. M.

Deerlodge Postoffice.

A petition has been sent in to the Department asking for the establishment of a postoffice at Deerlodge. It will doubtless be granted as there are enough men there now to justify it. Until the new schedule of next July goes into effect, Deerlodge will probably be supplied from the Urine, or Eagle Valley office.

Through an oversight evidently Deerlodge was not mentioned as a point to be included in the new route between here and Milford. This will doubtless be corrected as soon as the Deerlodge office is established, and it would make a short and more feasible route, than to go via Newlands as it is claimed that in bad weather the canyon from Stateline to Newlands is in places impassable, as are also parts of the canyon between Newlands and Urine.

Both could be avoided by running from Stateline to Deerlodge, thence via Urine to Pioche, supplying Newlands with a five mile service from the Urine office.

To Cure Constipation Forever. Take Cascarets Candy Cathartic 10 or 25c. If C. C. C. fails to cure, druggists refund money.

THE NEWSPAPER LAW.

All Subscribers Should Read the Following Law and Avoid Trouble.

1. All subscribers who do not give express notice to the contrary are considered wishing to continue their subscriptions.

2. If subscribers order the discontinuance of their periodical the publisher may continue to send it until all arrearages are paid.

3. If subscribers refuse or neglect to take their periodicals from the office to which they are directed, they are responsible until they have settled their bills and ordered them discontinued.

4. Subscriber moving to other places without informing the publisher, and the papers are sent to the former address, they are held responsible.

5. The courts have decided that refusing to take periodicals from the office or removing and leaving them uncalled for, is prima facie evidence of intended fraud.

6. If subscribers pay in advance they are bound to give notice at the end of the time they do not wish to continue taking it, and the subscriber will be responsible until an express notice with all arrearages are sent to the publisher.

7. The latest postal laws are such that newspaper publishers can arrest anyone for fraud who take a paper and refuses to pay for it.

Under the law the man who allows his subscription to run along some time unpaid, and then orders it postmaster to mark it "refused" and have a postal card sent notifying the publisher, leaves himself liable to arrest and fine, the same as for theft.

SMALL ILLS.

The Power to Endure Them May Be Cultivated.

It is often easier to bear a great sorrow than to endure small ills and remain of even, sweet disposition. The old simile that drops of water wear into the solid rock is certainly an apt one. It is easy to steel one's nerves and fight bravely fortune that is adverse if there is a chance of an honorable victory. The bravest knight, however, may be overcome by gnats.

It is the misfortune of women to be more delicate in their nervous structure than men, and to be more often the victims of petty annoyances such as rasp the nerves and temper. It is peculiarly woman's duty to attend to minutiae. Housekeeping demands strict attention to small things. If the housekeeper has trouble in her work it is a petty matter to talk of. It comes from the petulance of servants, the failure of the yeast perhaps to rise, or the stupidity of some one who has left the oven door open and upset all her plans for dinner. Some one, perhaps, has carelessly stopped the plumbing, and a large bill is incurred from this source, which makes it impossible for her to buy a much-needed winter bonnet for herself, or new coats for the children. The matters essential to health come first, and at any cost the water pipes must be repaired.

It is just such petty things as we have named which wear woman's patience and sometimes make the middle-aged woman a hopeless scold or a nervous invalid, when she should be a placid, even-tempered, happy woman. The power to endure small ills, however, can be cultivated. It is an easy matter at the beginning of life to look upon things philosophically and check the frown or hasty word which rises to the lips. If a mother would only remember that her whole future happiness depends upon the restraint she exercises on such occasions it would save her. More than her own happiness, the happiness of her own children and that of all who love her depend upon it. It is an effort that she must make at whatever cost. The habit of self-restraint and self-repression grows upon one who practices it. Finally it becomes second nature to speak a gentle word instead of a fretful one when an annoying blunder occurs. A word fitly spoken without temper will do more to prevent an utter blunder than all the sharp utterances of anger.

Unhappy fretfulness also grows with the indulgence in the habit until the person becomes an unbearable companion and sometimes drives all her friends from her. This vice is by no means limited to women. We have known men who were chronic scolds and who rendered their homes and offices abodes of misery by fretting over small matters, though this is not often a masculine fault.—N. Y. Tribune.

Two Strikes.

"Mawson struck oil and made his fortune."

"He was lucky. Hewson struck dynamite and made his exit."—Philadelphia North American.

Game Consumed in Paris.

Paris consumes yearly more than 5,000,000 head of game, according to the Daily Messenger of Paris. This includes 270,000 hares, 1,575,750 partridges, 12,000 ducks, 253,000 geese, 175,000 thrushes and blackbirds, 85,000 pheasants, 38,000 woodcocks, 11,000 snipe and 5,600 cranes. No notice is here taken of game that is smuggled into the city.—N. Y. Sun.

Panaca Co-op.

Dealers in General Merchandise Clothing, Boots and Shoes, Provisions, Groceries, Grain and Hay.

A free corral with a good cookhouse.

C. P. RONNOW, Mgr. PANACA NEVADA.

SOCIETIES.

L. O. O. F. PIOCHE LODGE NO. 25.

MEETS EVERY TUESDAY AT 7:30 o'clock in their hall on Main street. Visiting Brothers cordially invited to attend.
